

# Anti-ligature Series

Product ref: ANTIFM12CKCLT

**FULL PRODUCT DESCRIPTION:** Anti-ligature anti barricading bathroom turn and indicator with coach key release [key provided]

**MATERIAL:** AISI 304 stainless Steel

**DESIGN SPECIFICATION:** Designed for use in facilities where users of the building might self-harm either by attaching ligatures to door fittings or attempting to barricade by holding the turn, thus preventing entry by the staff. The product incorporates a clutch mechanism which, when the emergency release key is operated, and the client is holding the knob, allows the bolt to be released thus giving entry to the facility without delay. The knob is designed to prevent the attachment of ligatures but easy to operate.

**PARTS LIST:** One knob on rose, one coach key indicator, two torx pin anti-tamper screws, one spindle, 1-coach key. 1-torx pin screw driver head.

**FITTING INSTRUCTIONS:** Prepare the door by drilling a 12mm hole where the spindle will go through the lock, with two holes 5mm in dia at 38mm c/c for the torx pin bolt through fixings. Present the knob side to the facility side of the door, put the screws through the holes and fixed spindle through the lock follower. Present the release indicator first ensuring that the indicator dots line up when the door is locked.

Tighten the screws with the special bit provided: **do not use power drivers to fit this product as it will damage the screw heads. Do not adjust the grub screws visible on the sides of the knob these are factory preset.** On satisfactory installation of this product please hand the screw driver bit and coach key to the facilities manager.

**TROUBLESHOOTING:** If the clutch does not operate satisfactorily check the following: that the lock is straight in both vertical and horizontal planes, the bolt is not fouling on the receiving plate and the door is not warped. Remove the product from the door and check the operation of the set by holding the knob and operating the key. If this operates satisfactorily it is likely that the problem is one of the possibilities already detailed. Please call us.

**CARE AND MAINTENANCE:** This product does not require any mechanical maintenance. Periodically check the screws for tightness and wipe with a damp cloth.

**TOUCHCLEAN ANTIBACTERIAL COATING:** All Dortrend products can be supplied with our antibacterial coating which kills 99.9% of MRSA E.coli and other bacteria.
