

If your little angels are a bit too enthusiastic at break time, you know the cost of damaged door pivots and flush bolts! We have the solution.

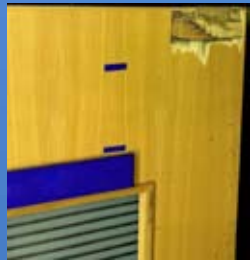

Flush bolt protector

Pivot protector

Protectors are made from stainless steel and an optional wood finish is available. They can be painted to match existing door colours.

Without protector

With protector

Anti-bacterial coating available on all products
TouchClean

New! Child safety hook

This new safety hook is made from unbreakable polycarbonate and is strong enough for coats and bags. As it does not project forward, and has no sharp edges, there is less danger of injury to little heads and faces.
