

The Healthcare Range

Dortrend - Opening doors everywhere

A complete range of products suitable for use in Healthcare environments. These are products which have been specifically designed to meet the needs of the disabled, the infirm and the vulnerable. The products can help you meet DDA compliance and HTM regulations. Additional products to protect the vulnerable are included in our Antligature Range, and there is an Anti-bacterial coating too!

A standard easy grip handle for general use with a range of base plates

The Dortrend "Hospital Handle"
A vertical pull handle with special canted lower portion which assists the less able

HTM

A Dortrend DDA special. A horizontal pull handle with a drop down section at the opening door edge which is designed to make access easier for wheelchair patients.

A complete range of aids for disabled toilet and bathroom facilities. Well designed and strongly engineered components by Dortrend that will give exceptional service. (Standard plumbing fittings for illustration only.)

Triple bend design means that it's easier to get a grip. Good for people carrying things who need to use an elbow, or those whose grip is compromised

A collection of braille door signs

Antiligature

The Antiligature Range from Dortrend is designed to reduce the opportunity of self harm in the vulnerable. Designed and manufactured by Dortrend in the UK.

A neat door knob with smooth surfaces.

An antiligature pull handle which is easy to grip and will easily open heavy doors.

A turn which is easy to operate but has smooth surfaces which preclude attachments.

An antiligature lever handle. The lever returns to 45°

More!
This just a selection of antiligature fittings. A brochure can be downloaded from the web site.

A smooth design and easy grip make this antiligature pull handle suitable for windows

Anti-bacterial coating

New technology from Dortrend. A photo-catalytic coating that kills bacteria on contact, using nano-technology.

The *TouchClean* catalytic coating lasts for years and is self cleaning. It destroys bacteria (including: SARS, MRSA, staphylococcus, salmonella, e-coli, c-difficile, listeria,) viruses, odours, solvents, VOC's, fungus, cigarette smoke and even helps prevent dirt sticking to surfaces.

*TouchClean*TM
